

Colorado Strategies to Reduce Cost-Sharing for Patients

Reduced Cost-Sharing for Prescription Drugs

This section examines whether states have passed legislation to reduce the amount consumers pay out-of-pocket for select prescription drugs including insulin, epinephrine, and asthma inhalers, and specialty drugs. Strategies examined in this section include:

- Waived or Reduced Cost-Sharing for Diabetes Medications
- Waived or Reduced Cost-Sharing for Asthma Inhalers
- Waived or Reduced Cost-Sharing for Epinephrine Auto-Injectors
- Waived or Reduced Cost-Sharing for Specialty Drugs

Reduced Cost-Sharing for Behavioral Health Services

High out-of-pocket costs can limit access to behavioral health care. To address this, some states require insurers to waive or reduce cost-sharing for an annual behavioral health visit, ensuring more affordable access to essential mental health services. This section examines whether states have implemented reduced cost-sharing requirements through:

- Waived or Reduced Cost-Sharing for an Annual Behavioral Health Office Visit

Reduced Cost-Sharing for Preventive Care

Preventive services recommended by the U.S. Preventive Services Task Force (USPSTF) are critical to early detection and management of health conditions. States can improve access by requiring insurers to waive or reduce cost-sharing for these services. Strategies examined in this section include:

- Waived or Reduced Cost-Sharing for United States Preventive Services Task Force (USPSTF) Recommended Preventive Services

Reduced Cost-Sharing for Maternal and Reproductive Health Services

Some states expand access to reproductive health care by requiring coverage of services such as fertility treatments, doula support, and abortion care without high cost-sharing barriers. These policies aim to improve maternal health outcomes and ensure equitable access to reproductive services. Strategies examined in this section include mandates requiring:

- Individual and Small Group Health Plans to Cover Fertility Treatments

- Individual and Small Group Health Plans to Cover Doula Services

- Individual and Small Group Health Plans to Cover Abortion Services

Reduced Cost-Sharing for Cancer Screening and Testing Services

Early detection of cancer improves outcomes but cost-sharing can be a barrier to recommended screenings. States may require insurers to waive or reduce cost-sharing for services such as colorectal, breast, cervical, lung, prostate, and ovarian cancer screenings, as well as biomarker testing. This section examines whether such requirements are in place to promote timely and affordable cancer screening. Strategies examined in this section include mandates requiring:

- Waived or Reduced Cost-Sharing for Colorectal Cancer Screenings

- Waived or Reduced Cost-Sharing for Follow-Up Colorectal Cancer Screenings

- Waived or Reduced Cost-Sharing for Lung Cancer Screenings

- Waived or Reduced Cost-Sharing for Breast Cancer Screenings

- Waived or Reduced Cost-Sharing for Supplementary Breast Cancer Screenings

- Waived or Reduced Cost-Sharing for Cervical Cancer Screenings

- Waived or Reduced Cost-Sharing for Ovarian Cancer Screenings

- Waived or Reduced Cost-Sharing for Prostate Cancer Screenings

- Waived or Reduced Cost-Sharing for Biomarker Testing

Reduce Cost-Sharing for Patients

Reduce Cost-Sharing: Prescription Drugs

Policy	Status as of June 2025	Summary
Waives or Reduces Cost-Sharing for Diabetes Medications	 State has enacted legislation to limit cost-sharing for insulin, diabetes related equipment, or both	Colorado caps out-of-pocket costs for a 30-day supply of prescription insulin at \$100.00. The state also operates an Insulin Affordability Program, which provides discounted insulin to uninsured and eligible underinsured residents.
Waives or Reduces Cost-Sharing for Asthma Inhalers	 State has not enacted legislation limiting cost-sharing for asthma inhalers	
Waives or Reduces Cost-Sharing for Epinephrine Auto-Injectors	 State has enacted legislation to limit cost-sharing for prescription epinephrine autoinjector (s)	Colorado caps cost-sharing for a twin-pack of epinephrine auto-injectors at \$60.00 and has established an Epinephrine Auto-Injector Affordability Program, which provides discounted epinephrine to uninsured and underinsured residents.
Waives or Reduces Cost-Sharing for Specialty Drugs	 State has enacted legislation to limit cost-sharing for specialty drugs	Colorado requires all state-regulated health benefit plans to include coverage for HIV prevention drugs and services without cost-sharing.

Reduced Cost-Sharing: Behavioral Health

Policy	Status as of June 2025	Summary
Waives or Reduces Cost-Sharing for an Annual Behavioral Health Office Visit	 State requires private insurers to cover at least one annual mental health wellness exam without cost-sharing	Colorado requires health insurance plans to cover an annual mental health wellness exam without patient cost-sharing.

Reduce Cost-Sharing for Patients

Reduced Cost-Sharing: Preventive Care

Policy	Status as of June 2025	Summary
Waives Cost-Sharing for Preventive Services Recommended by the U.S. Preventive Services Task Force (USPSTF)	State mandates private insurers cover USPSTF recommended preventive services without cost-sharing	Colorado law already requires insurance plans to cover preventive services recommended by the United States Preventive Services Task Force without cost-sharing. Senate Bill 25-196, passed in 2025, strengthens these protections by requiring continued coverage even if federal guidelines change. It authorizes the state Insurance Commissioner to maintain coverage based on January 2025 standards and allows a state advisory task force to update the list of required services with public input. The bill also permits limited exceptions for HSA-qualified plans to ensure they comply with federal law.

Reduced Cost-Sharing: Maternal and Reproductive Health Care

Policy	Status as of June 2025	Summary
Individual and Small Group Health Plans Required to Cover Fertility Treatment	The state requires individual and small group health plans to offer coverage for in-vitro fertilization alone or in addition to fertility preservation services	Colorado requires health insurance policies to cover standard fertility preservation and in-vitro fertilization (IVF).
Individual and Small Group Health Plans Required to Cover Doula Services	✗ State does not require private health insurers to cover doula services for enrollees	SB24-175, enacted on June 5, 2024, mandates large employer health plans provide doula coverage starting July 1, 2025.
Individual and Small Group Health Plans Required to Cover Abortion Services	✗ The state does not require individual and small group health plans to cover abortion services	

Reduce Cost-Sharing for Patients

Reduced Cost-Sharing: Cancer Screening and Testing Services

Policy	Status as of June 2025	Summary
Waives or Reduces Cost-Sharing for Colorectal Cancer Screenings	State law requires insurers to cover colorectal cancer screening tests with no cost-sharing	
Waives or Reduces Cost-Sharing for Follow-Up Colorectal Cancer Screening Exams	State law requires insurers to cover follow-up colorectal cancer screening but allows cost-sharing*	
Waives or Reduces Cost-Sharing for Lung Cancer Screenings	State law does not require coverage or waive cost-sharing for lung cancer screening exams	Colorado law does not explicitly require insurance carriers to provide coverage for lung cancer screening, but the state does require carriers to cover USPSTF recommended services without cost-sharing, which includes health services rated "A" or "B" by the U.S. Preventive Services Task Force such as lung cancer screening.

Reduce Cost-Sharing for Patients

Reduced Cost-Sharing: Cancer Screening and Testing Services

Policy	Status as of June 2025	Summary
Waives or Reduces Cost-Sharing for Prostate Cancer Screenings	 State law requires insurers to cover prostate cancer screening but allows cost-sharing	Colorado requires insurers provide coverage for prostate cancer screening predeductible and limits the out-of-pocket costs for a prostate cancer exam to \$65.00
Waives or Reduces Cost-Sharing for Ovarian Cancer Screening	 State law does not require coverage or waive cost-sharing for ovarian cancer screening exams*	
Waives or Reduces Cost-Sharing for Biomarker Testing for Cancer	 State requires coverage of biomarker testing for cancer screening but allows cost-sharing	As of January 1, 2025, Colorado requires certain state-regulated health plans to cover biomarker testing, excluding screening and direct-to-consumer genetic tests. Insurers may still apply cost-sharing, but coverage cannot be subject to annual or lifetime limits.
