

New Mexico Strategies to **Reduce Cost-Sharing for Patients**

Reduced Cost-Sharing for Prescription Drugs

This section examines whether states have passed legislation to reduce the amount consumers pay out-of-pocket for select prescription drugs including insulin, epinephrine, and asthma inhalers, and specialty drugs. Strategies examined in this section include:

- Waived or Reduced Cost-Sharing for Diabetes Medications
- Waived or Reduced Cost-Sharing for Asthma Inhalers
- Waived or Reduced Cost-Sharing for Epinephrine Auto-Injectors
- Waived or Reduced Cost-Sharing for Specialty Drugs

Reduced Cost-Sharing for Behavioral Health Services

High out-of-pocket costs can limit access to behavioral health care. To address this, some states require insurers to waive or reduce cost-sharing for an annual behavioral health visit, ensuring more affordable access to essential mental health services. This section examines whether states have implemented reduced cost-sharing requirements through:

- Waived or Reduced Cost-Sharing for an Annual Behavioral Health Office Visit

Reduced Cost-Sharing for Preventive Care

Preventive services recommended by the U.S. Preventive Services Task Force (USPSTF) are critical to early detection and management of health conditions. States can improve access by requiring insurers to waive or reduce cost-sharing for these services. Strategies examined in this section include:

- Waived or Reduced Cost-Sharing for United States Preventive Services Task Force (USPSTF) Recommended Preventive Services

Reduced Cost-Sharing for Maternal and Reproductive Health Services

Some states expand access to reproductive health care by requiring coverage of services such as fertility treatments, doula support, and abortion care without high cost-sharing barriers. These policies aim to improve maternal health outcomes and ensure equitable access to reproductive services. Strategies examined in this section include mandates requiring:

- Individual and Small Group Health Plans to Cover Fertility Treatments

- Individual and Small Group Health Plans to Cover Doula Services

- Individual and Small Group Health Plans to Cover Abortion Services

Reduced Cost-Sharing for Cancer Screening and Testing Services

Early detection of cancer improves outcomes but cost-sharing can be a barrier to recommended screenings. States may require insurers to waive or reduce cost-sharing for services such as colorectal, breast, cervical, lung, prostate, and ovarian cancer screenings, as well as biomarker testing. This section examines whether such requirements are in place to promote timely and affordable cancer screening. Strategies examined in this section include mandates requiring:

- Waived or Reduced Cost-Sharing for Colorectal Cancer Screenings

- Waived or Reduced Cost-Sharing for Follow-Up Colorectal Cancer Screenings

- Waived or Reduced Cost-Sharing for Lung Cancer Screenings

- Waived or Reduced Cost-Sharing for Breast Cancer Screenings

- Waived or Reduced Cost-Sharing for Supplementary Breast Cancer Screenings

- Waived or Reduced Cost-Sharing for Cervical Cancer Screenings

- Waived or Reduced Cost-Sharing for Ovarian Cancer Screenings

- Waived or Reduced Cost-Sharing for Prostate Cancer Screenings

- Waived or Reduced Cost-Sharing for Biomarker Testing

Reduce Cost-Sharing for Patients

Reduce Cost-Sharing: Prescription Drugs

Policy	Status as of June 2025	Summary
Waives or Reduces Cost-Sharing for Diabetes Medications	State has enacted legislation to limit cost-sharing for insulin, diabetes related equipment, or both	New Mexico caps the out-of-pocket costs for a 30-day supply of prescription insulin at \$25.00.
Waives or Reduces Cost-Sharing for Asthma Inhalers	State has not enacted legislation limiting cost-sharing for asthma inhalers
