Texas Strategies to
Prevent Medical Debt

Balance Billing and Short-Term Insurance

The federal No Surprises Act (NSA) protects patients from surprise medical bills (also referred to as "balance bills"), which are unexpected costs from out-of-network providers. Under the federal legislation, patients receiving emergency care or who are unknowingly treated by out-of-network providers during an in-network procedure are only required to pay the in-network cost-sharing amount for services provided. Effective January 1, 2022, the No Surprises Act applies to most health plans but not all care sites and services. States can legislate additional protections for balance bills not covered under the NSA, such as for ground ambulances, or limit the number of short-term, limited duration health plans available in the state, which traditionally cover fewer services putting enrollees at greater risk of incurring balance bills. Strategies examine in this section include:

Prohibitions on Balance Billing for Ground Ambulance Services

Prohibitions on Short-Term, Limited Duration Health Plans

Charity Care and Community Benefit Requirements

This section reviews state laws aimed at preventing medical debt, including mandates for hospitals and health care providers to offer financial assistance policies, screen patients for insurance and charity care eligibility, and inform patients of charity care policies before collecting payment. Strategies examined in this section include:

Mandated Hospital Charity Care

Hospital Charity Care Screening Requirements

Hospital Charity Care Notification Requirements

Hospital Community Benefit Reporting Requirements

Reducing Financial Consequences

This section examines how a state regulates providers' ability to collect medical debt once it has been incurred. States can mitigate the financial harm of medical debt by regulating how and when providers and collection agencies pursue repayment or by limited aggressive collection actions. Strategies examined in this section include:

Mandated Waiting Period Prior to Sending a Bill to Collections

Limits on Liens or Foreclosures due to Medical Debt

Limits on Wage Garnishment due to Medical Debt

Limits on the Amount of Interest Charged to Medical Debt
